The Dy. Secretary to Govt. of Bombay,
Public Works Department,
BOMBAY.

Dear Sir,

Re:- Reconnection of Electric service - Mr. M. G. Agadi.

One of our consumers, Mr. Agadi had requested us in the month of December 194 to remove his service temporarily as he was demolishing his old house and construc-ing a new one at the same place and to put up the same service as soon as his new building is ready. His new building is now ready and he has requested us to re-fix his old service. He had in the old house 5 light points and one plug point. He kept all the old wiring materials and is going to use the same for the new house He is not taking any extra lights nor using any extra materials. The same old service is to be used as it was removed under the understanding that as soon as the new building is ready, it should be refixed. We are thus refixing the old service and giving connection to the consumer.

Yours faithfully,

L.G.Pattankar

CHIEF ENGINEER.

2/. Under the Ely. control order, Supply Co. are permitted to grant reconnections only when no el. materials are required except the replacement of the previous mile

3/. In the present case, not only was the insts. removed by the consumer, but the service was also removed by the Co. As such, Supply to the consumer at the new house constructed at the same place, will have to be treated as a fresh supply & for this Govt's. permission was necy.

4/. However, in view of the information given by the Co. overleaf, it is for orders whether the Co. may be asked to submit an applcn. in the prescribed form for the action be condoned giving intimation that previous permission of Govt ought to have been taken in this case.

SM.

Subj: Supply of el. power to Mr. M.G. Agadi.

Dear Sirs,

With ref. to your letter No. 4/Con-C/44/1117, p.1 dt. the 4th Nov. 1944, I am to invite your attention to para. 1 of the revised control order and which prohibits you to reconnect a consumer if this reconnection involves the provision of any service lines, cables or connections not already installed. In the present case of Mr. Agadi, as you had already removed your service, supply to the consumer at the new house amounts to a new connection and as such, prior permission of Govt. ought to have been taken.

x will see post-cf

. However in the light/view of the information

REGISTERED ACK/DUE. Dharwar, 1/11/1944.

The Dharwar Electric Supply Co., Ltd.,
Dharwar.

Gentlemen,

With reference to your Chief Engineer's letter No. 14/D/44 of the 23rd September last, I have to stat that I had informe your Company by a written application dated 23rd June last that the electric wire connection to the Grand Hotel has been taken along the eve board of my adjoining building by your Company, that you should remove that fixture from my building and arrange to give a direct connection to the Grand Hotel. The connection is dangerous to my building as have already informed you. You have no legal right to take the connection fixture thro' my building. Please, therefore, remove that fixture within a fortnight's time of the receipt of this notice. If not, I shall have to take legal steps to remove it.

Yours faithfully,

Sd/- R. J. S. Deepad.

Public Works Department,
Bombay.

Dear Sir,

Re:- Removal of service given to the Grand Hotel along a portion of the eve Board of Mr. R.J.S.Deepad's Building.

We shall thank you to please let us have your opinion on the following points.

We are enclosing herewith a rough sketch showing the arrangeme of services given to our consumers namely,

(1). Proprietor, Grand Hotel, and

(2). F. B. Bhikaji, Beedi Merchant.

The portion shown in the blue cross section is the building of the Grand Hotel and the portion shown in red is the building of Deepad having a common wall in between. The Grand Hotel has been installed with Electric lights since 28th June 1930 and service for this installation has been given since the beginning along the front eve Board of a portion of Mr. Deepad's house as shown by red line. Subsequently Mr. Bhikaji, a tenant of Mr. Deepad, applied for electric connection for his shop in the year 1941 on 16th October and the service for his installation was tapped at point "X" from the service given to the Grand Hotel. Thus the electric installatio to the Grand Hotel and Mr. Bhikaji's shop are in existence since las 14 years and 3 years respectively. Now, Mr. Deepad has written to u and asked us to remove the service given to the Grand Hotel running along a portion of his eve board of his building, and give the same directly, stating that the connection given to the Grand Hotel is dangerous to his building. A copy of his post card is attached here with for your perusal. Mr. Deepad did not make any mention in his letter about the service given to Mr. Bhikaji's shop. It is thus clear that he wants to remove only the service given to the Grand Ho If the service to Mr. Bhikaji's shop is to be continued, it is obvio that the present service will have to be retained as it is, as his service is tapped from the service given to the Grand Hotel-a if so if his service is to be retained there on the same eve board, do not understand how Mr. Deepad's building is in dangerrous conditio if the service to the Grand Hotel is kept continued. We would, there- fore, like to know whether we are required to remove the service give to the Grand Hotel and if so who (i.e. whether the Co. or Mr. Deepad) has to bear the cost of giving new service to the Grand Hotel throug other source?

Yours faithfully,
L.G.Patterson
CHIEF ENGINEER.

Bombay, 11th January 1945.

Returned with compliments.

2. The Supply Co. have originally made the mistake of giving connection to the Grand Hotel by laying a service line alon with the structure belonging to Mr.Deepad without his written permission. It is learnt that some time back there was fire in the casing covering the service conduc tors laid for supplying energy to the Gra Hotel. As Mr.Deepad, the owner, does not desire that his structure should be made use of for supplying energy to the premis and also run the risk of fire to his -- premises, he has asked the Supply Company to remove the lines forthwith from his premises. The question, therefore, should be settled amicably by the Supply Co. wit Mr.Deepad by offering suitable compensati and also by assuring him that the risk of fire is completely eliminated by enclosi n the conductors in fire-proof metallic conduits. It is learnt that Mr.Deepad - proposes to take legal action against t Supply Company for making use of his -- structure without his permission and t

The Karnatak Industrial & Plywood
Company Limited:

Dharwar: 7th March 194

Our Ref:No.2001/1904

The Dharwar Electric Supply Co., Ltd.,
Dharwar:

Dear Sirs,

ub:- New Electric Service for our Factory and Office Buildings.

Referring to your letter No.14/P/44 of 15-12-44; we beg to answer the questionaire given therein as follow:-

(1) The exact point where we require the supply from the last pole along that road: We require two points one for factory build... and the other for the office buildings..

(a) For Factory Buildings: Pole Number for this point is 149 D. Distance from the pole to the eastern corner of the factory building is 650 ft.

(b) For Office Buildings: Pole Number for this point is 151. Distance from the pole to the corner of the office buildings nearest the pole is 200 ft.

(2) The particulars of the total Horse power required, viz., whether you want to fix up one big motor of the capacity required or there will be separate motors for individual machines with the details of the Horse Power of each.

Motors with variable load:

(i)	Motor for American Press	10 H.P.
Motors with constant load:		
(ii)	Motor for well pump (factory well) ...	8 H.P.
(III)	,, ,, ,, ,, (Office Well) ...	2 H.P.
(iv)	Motor for Workshop.	10 H.P.
(v)	Motor for "Coo" veneer drier.	15 H.P.
	Total:	45 H.P.

(3) Time during which you require the supply:

Between 8-30 A.M. and 12-30 NOON and 2 P.M. to 7 P.M. or from 2 P.M. to 11 P.M. conveniently.

(4) Whether all the motors will work simultaneously or at different hours and what would be the maximum horse power coming at one time.

We do not expect all the motors to work simultaneously but we would request you to make provision for all the motors to work simultaneously should necesaity arise and the maximum load at a time will not exceed 45 HP

(5) Nature of the load - whether steady or varying. If varying what would be the range of variation from no load to full load

Motor for American press alone will vary and the range of variation in this case will be from NO.H.P. to 10 H.P.

(6) The details of the motor or motors that are going to be installed for the factory, i.e., type of the motor, whether slip ring or squirrel case and H.P.

Details are as at question (2). All Motors will be slip-ring(or wound) type)

(7) The Wattage of lights that are required in the factory

Factory: 60 lights of 40 watts.
30 lights of 60 watts.

Yard: - - 20 lights of 60 watts.

Bungalow & Offices: 20 lights of 20 watts.
Office: 20 lights of 40 watts.

(8) Approximate date from which the supply is required:

As early as possible.

Yours faithfully,
For K.I.P.Co., Ltd.

Manager.

Thro'
The Dharwar Electric Supply Co.,
D H A R W A R:

Dear Sir,

Ref: Electrical connexion for our Branch Factory at Dharwar:

We beg to state that the construction of the buildings for housing the new American Veneer Plant recently released to us by the Government is proceeding rapidly and we are also installing the machinery.

Most of these machines are provided with Electric drive and hence for running these we want supply of electrical energy from the local Dharwar Electric Supply Company.

In Our application to the Chief Inspector of Electricity, Bombay, who has directed us to approach your goodself through the Electric supply Co., and hence the present application.

As regards details of power etc., required our letter of 7-3-45 in reply to the Dharwar Electric Supply Co., Ltd., letter No.14/P/44 of 15-12-44 (copy of which is enclosed) speaks for itself.

Hence we request your kind self to be good enough to pass orders sanctioning a connection for us, so that we could push on our production at an early date for supply to the War Department and thus help in the effective prosecution of the war.

Yours faithfully,

Subject:- Existing installation of Electric light points and plug lights.

Reference your No.S-59/1/21268-El of 15-8-1944.

Sir,

I am herewith enclosing letter No.14/y/44 dated 21-5-1944 received from the Dharwar Electric Supply Co., for your perusal and state that the Company in question has not represented my case properly. I therefore request you to be kind enough to forward the case papers to J.M.Postwalla,Esq. Government Electrical Inspector at Dharwar and call for his opinion.

In view of your letter No.59/1/23308-El of 18-9-44 it is presumed that no permission is necessary under electrical control order to alter the position of light points plug lights and to fix up submeters etc., in the premises owned by the applicant,vide plan attached, without making additions in the connected load or in the maximum demand. I may also add that only 4 or 5 lights in the main building are in use at present.

Dear Sir,

I shall be much obliged if you can kindly let me know, whether I can use plug-lights of the existing installation under the circumstances, to my quarter where I reside.

2. I have discussed with the Chief Engineer of the Sub City Co Dharwar, who told me that there is no objection to use plug lights in question.

3. I therefore request you kindly to grant me permission to use plug-lights of the existing installation to my quarter

Bombay, 20th January 1945.

Returned, with compliments.

2. The facts of the case are as und

Mr.Yatgiri owns a house which is provided with electric installation, the meter for which is still in his name even though the place is actually rented to another tenant.

Mr.Yatgiri is staying in a small hut adjoining this bungalow and desires t make use of 5 plug points existing in the bungalow. The present tenant, it is learnt will have no objection, provided Mr.Yatgiri installs a separate meter to register his own energy. It is obvious, therefore, that the alterations in the proposed installation are really meant for supplying energy to different consumers, even though on paper Mr.Yatgiri who is still the registered consumer of the Company, is quite at libert to alter and amend his installation so as not to exceed the total connected load or maximum demand.

3.....

59/1/2394 36 264 52

3. As the installation is to be used another house, I am of opinion that fting of the installation may not be owed

Public Works Department
Bombay.

Sir,
p. 39 of 15-1-44.
1) I am here-with sending a letter No. 14/c/44 from Dharwar Electric Supply Co.Ltd. for your perusal and to state that per-mission of the Government is necessary under Electricity Control Order, for execution of new connections or extension to t the old connections.
p 23
2) But, referring to your letter No. S. 59/1/23308 El. dated 18-9-44 (copy attached) it is presumed that no permission is required, under Electricity Control Order for pure alterations of position of light points and plug-lights, of the existing Installation from my own Main Building to my out-house, in my bungalow at Fort Dharwar, without involving the use of extra electric articles such as sub-meter and etc, and without making addition in the connected load or in the maximum demand. More-over I have occupied the main building as well as the out-house. Please confirm, and oblige.
P.T.O.

3) I request you, not to misunderstand in this respect — now that it involves the use of extra electric materials. The Dhanwar Electric Supply Co. Ltd. has not represented my case properly I therefore humbly request your honour to be kind enough to forward the case papers to J. M. Postwala Esq. Govt: Electrical Inspector at Dhanwar, if necessary and call for his opinion. — I have consulted with Mr. Nadakarni Head of Electrical Dept: Bombay. personally. here at Dhanwar. that officer may also be consulted with if necessary.

Thanking you.

Yours faithfully

To

The Electric Supply Co., Ltd.,
Dharwar.

Dear Sirs,

I shall be obliged if you will kindly arrange to supply a new service connection for supply of Electric Energy for lighting purposes to my house (Municipal & City Survey No. 652) situated near Thakur Talim, Dharwar. The number of nearest Electric Pole to my house is 662.

2. I am requesting for this new connection now as I understand that you have recently given (probably in the month of December 1943 or January 1944) a new service connection for supply of electricity for lighting purposes from Pole No. 809 to house No. 608 (City Survey) belonging to one Mr. Mahommed-ali wd. Jainulabdin Kanpagadi and it is situated at Mankilla, near Motitalao, Dharwar.

Thanking you in anticipation of an early reply,

Yours Faithfully,

15/1/1944.

-I 5 284/39 (3)

To

The Dharwar Electric Supply Co., Ltd.,
Dharwar.

Dear Sirs,

Reg:-Service Connection.

b 3

I acknowledge with thanks receipt of your No. 14/M/44, dated the 4th May 1944.

2. I write to inform you that the consumers' main on the road whereon my house is situated terminates at Pole No. 660 and the nearest pole to my house is No. 662; so there is only one pole - No. 661 - in between these two poles. The distance between Poles Nos. 660 and 662 appears to be approximately 300 feet.

3. I might here bring to your notice that my house is situated on a main road, which is, of course, ill-equipped with lights. Even the street lighting on this main road terminates at pole No. 663 (the last pole on this line being 664 which is erected in a bye-lane and in btween Poles Nos. 663 and 398 - a distance of about a furlong - there are absolutely no electrical wires of any description. In contrast to this, I mention below a few adjacent streets and lanes with details of electrical stre lightirg and consumers' main:-

(i) --- LAKMANHALLI-GALLI - This street is narrower than our main road but is fortunate enought to have both street lighting and consumers' main starting from Pole No. 400. The electrical wires run through poles Nos. 527 (in the whole of the stree the only pole through which service connection is given to a pleader's house), 528, 529 and 828 and terimates at Pole No. 530.

(ii) --- BASTI-GALLI - In this street, street lighting and consumers' main start from Pole No. 398 running through Poles Nos. 523, 524, 525 and terminate at Pole No. 526. In this street only one service connection has been given to a house from Pole No 525.

(iii) --- DESHPANDE-GALLI - Street lighting and consumers' main run from Pole No. 512, running through Pole No. 513 and terminate at Pole No. 514.

(iv) --- HEMBLI-GALLI - This is a lane through which two carts from opposite direction can hardly pass each other and it is equipped with street lighting and consumers' main throughout the lane starting from Pole No. 571 and passing through Poles Nos. 510, 509 and 508 and terminating at Pole No. (not decipherable).

(v) --- JINGAR-GALLI - This is a peculiar lane through which a tonga could hardly pass and it is equipped with street lighting and consumers' main starting from Pole No. 400 to Pole No. 723 from which only street lighting is directed into two adjacent sub-lanes.

There may be many other streets in the town of the nature referre to above and it is not possible for me to go into details.

4. From your letter No. b 3 14/M/44, dated 4/5/1944, it appear that the Central Government permits the Company only to use old service connections as substitution. So, I request the Company to consider my case favourably and extend the consumers' main from Pole No. 660 to Pole No. 662 - a distance of abour 300 feet only - by making use of such service wires as lie idle, e.g., in the LAKMANHALLI-GALLI referred to in sub.paragraph (i) of paragraph 3 above. By this there will be no extra consumption of service wires or any extra expenditure to the Company and—

56 '290

me service.connection as requested in my previous letter dated the 24th April 1944. I undertake to pay the necessary expenses of the wires etc. from Pole No. 662 to my house.

Thanking you in anticipation of an early and favourable reply,

Yours faithfully,

No. 14/M/44, dated 10th June 1944, from the Dharwar Electric Supply Co., Ltd., Dharwar, to Nizam M. Mugad, Dharwar.

"Reg:-Fresh Service Connection

"We have to inform you that, your application, dated 15th May 1944, for giving you a fresh connection, has been rejected by the Dy. Secretary to Govt., P.W.D., Bombay, which please note."

To

The Dharwar Electric Supply Co., Ltd., Dharwar .

Dear Sirs,

Reg:-Fresh Service connection.

With reference to your No. 14/M/44, dated 10/6/1944, I request you to be kind enough to let me know the grounds on which my request has been rejected by Government when the following fresh service connections have been installed recently after the Restriction Order of Government in 1942:-

1. Dharwar-Hubli Motor Union's Motor Stand at Dharwar.

2. Mr. Hasansab Dasarkop's house near Burud galli, Dharwar (near K.C.C. Bank).

3. Mr. E.G. Maniyar's shop (new) at Dharwar Market &

4. House No. 608 of Mr. Mahommed-ali wd. Jainulabdin Kanpagadi at Markilla, near Moti-Talao, Dharwar referred to in paragraph 2 of my application dated 24/4/1944.

Thanking you in anticipation of an early reply.

Dharwar,
6/11/1944.

Yours Faithfully,

Sd: Nizam M. Mugad.

Submitted with reference to the G.L.No. S.59/1/2114-El., dated the 9-2-45.

2/- The application from Mr. Nizam M. Mugad was refused b 141 as fresh supply was required by him for residential •• requiring which is not considered as essential. It will be seen from the report received from the Co. that there are not Cos mains laid on the street for house lighting where the supply was required by the applicant. The Co. further states that the cases quoted by the applicant in his petition are in no way applicable to his case as they were sanctioned on their independent merits. It is ascertained from our records also that

1) Application from the Dharwar Hubli Motor & Union's Motor Stand was sanctioned as the supply in question was certified A by the D.M. Dharwar as essential in the interest of public safety.

2) Application from Mr. Hasansab Dasankop was sanctioned as it was a case of transfer of installation from one place to another.

3) Application from Mr. E.G. Maniyar was sanctioned as it was also a case of transfer of installation from one place to another.

4) Application from Mr. Mohmadalli

however not being traced on our records. It therefore for consideration whether the Co. may be asked to forward the application sanctioned in respect of Ltcr. concerned, before a suitable reply is given to Mr. Nizam M. Mugad.

Dear Sir,

Re: Supply of electric Power to
--Mr. Nizam M. Mugad, Dharwar.

With reference to your letter No. S.59/1/5790-El. dated 24th March 1945, in connection with the above, we have to state that the statement made by Mr. Nizam M. Mugad that " House No.608 of Mr. Mohammed-ali Wd. Jainulabdin Kanpagadi at Manikilla etc. etc." is incorrect as the house in question belongs to Mr. E. G. Maniyar who had applied to you through us, on 22-12-43, for shifting his original service laid to his shop in the market to this house in question in Manikilla and the same was sanctioned by you. Mr. Mohammed-ali Wd. Jainulabdin Kanpagadi is only a tenant in the said house.

As desired by you the sanctioned application in original, has been herewith sent which may please be returned when done with for our record.

Yours faithfully,

CHIEF ENGINEER.

------- A -------

No.O-46(V.I.)

District Local Board Office,
Dharwar, 14th September 1945.

To

The Chief Engineer,
The Dharwar Electric Supply Co. Ltd..
Dharwar.

Sir,

I have the honour to state that this Board has decided to organise a Village Industries Exhibition from 2nd to 12th October 1945. The Exhibition would be held in the premises of the Lingayat Town Hall, Dharwar. A number of stalls will have to be erected for keeping the exhibits and for demonstration. All the stalls will have to be supplied with --- electric lights. It is anticipated that about 50 lights -- (points) would be required. The Lingayat Town Hall is already fitted with electric connection.

Necessary permission of Govt. in this connection may please be obtained at an early date. Time at the disposal being very short, it is requested that immediate steps may be taken so that lighting arrangement may be completed - before the end of this month.

Your obedient servant,

Dharwar.

To,

The Deputy Secretary to the Govt. of Bombay,
Bombay,

Through The Dharwar Electric Supply Co. Ltd.,
Dharwar.

Sir,

SERVICE TO MY DISPENSARY.

I have my own Dental Dispensary equipped with electrical Dental apparatus and is being worked entirely on electricity, in the premises of Dr. B.G.Deshpande - since last seven years. The said premises have been sold and the purchaser having been in need of the whole building has asked me to vacate the premises and as such I am obliged to shift my Clinic to my own buildings at the station Road. I am unable to get any building on rent already fitted up with electric fittings, and so I have to shift my Clinic to my building along the station Road within the next few days but there being no electric installation, I cannot work any apparatus. The building is close to the Electric Supply Co's electric mains and thus the said building could be connected easily with a short length of service. There are 5 plugs and 12 light points in my Clinic and the same number would be required at the new place.

Looking to the sheer necessity of electric energy for working the Clinic and the profession of Dental - Surfeon, I hope you will be kind enough to grant permission to lay service at the new place.

Thanking you,

Yours faithfully,
Sd/- P.S.Desai.

2/- A load of 1.48 kwl. is required in a Dental Dispensary for lights and for working the Dental Apparatus. It will be seen from the remarks against item 6(f) of the application and copy of the consumer's letter at p. 5 ante, that the consumer was receiving supply for lighting and for his Dental Apparatus at his old premises but as the premises have been sold by the owner and as the purchaser requires the whole bldg. for his own use, the consumer is asked to vacate. As no other premises fitted with elty. are available, the consumer has shifted his dispensary to his own premises which are not fitted with elty. The Supply C. requires el. materials worth Rs. 50/- in giving the supply. It seems that, it will be a hardship on the applicant if the supply is not given. It is, therefore, for orders

File 11/10 D.S

subject:-Dharwar Municipality
Decorative lamps at the Edward Park Dharwar.

No.E.L.E.S.R.8.
Dharwar, 10th August 45.

Submitted to the Deputy Secretary, to the Government of Bombay, P. W. D. Bombay.

In forwarding herewith the correspondence on the subject noted above, between President Dharwar Municipality, and the Dharwar Electric Supply Co. LTD.Dharwar, I am to observe, that the Park being the only public resort, situated in the heart of Dharwar Town, the denial of permission for reconnection, with the Electric installation will deprive the public of the amenities, which the Municipality had under-taken to provide. In view of this fact, I recommend that the request of the President, Dharwar Municipality, may be reconsidered favourably if the position about meterials now permits of it.

I such place of

S. G. Barve

District Magistrate Dharwar.
